

Acute Care: Part III
Competency Checklist

Name :

Date :

Electronic Medical Record (EMR) system simplifies nurses' daily tasks by streamlining documentation, improving coordination, and reducing errors. With everything in one place patient records, medication schedules, and care plans. Nurses can work more efficiently and focus on patient care.

This checklist serves as a guide to help nurses navigate their daily processes within the EMR, ensuring consistency, accuracy, and better team communication.

Materials	Legend
Computer with access to O-CIS Environment	D = Done; ND = Not Done

BLOOD TRANSFUSION WORKFLOW		
Please refer to SLMC-Policy and Procedure "Patient Medical Record Documentation". Clinical Records Management 1-13-7, 08152024 "Emergency Release of Blood/Blood Components for Transfusion". Patient Care and Safety 1-95-1, 12022024		
VIEWING OF ORDER/S	D	ND
1. Select Patient from the list.	☐	☐
2. Click the  tab.	☐	☐
3. Apply the desired filter in the Options Panel to search for the "Transfuse Order"	☐	☐
VIEWING OF DOCUMENT (CONSENT)	D	ND
1. Click the  tab.	☐	☐
2. Search for the "Consent for Blood Transfusion" from the Options Panel .	☐	☐
PRINTING OF DOCUMENT (CONSENT)	D	ND
1. Click on the "Consent for Blood Transfusion" Document. (document must be highlighted only)	☐	☐
2. On the Main Toolbar, click on the  icon.	☐	☐
3. From the Report Category dropdown, click on the "Documents".	☐	☐
4. Select "Clinical Document / Structure Notes Entry".	☐	☐
5. Click the  button.	☐	☐
6. Click the  button.	☐	☐
 Print 1 copy before claiming the blood product.	☐	☐

CLAIMING OF BLOOD PRODUCT	D	ND
1. Select Patient from the list.	☐	☐
2. Click the  tab.	☐	☐
3. Right click on the Request Blood Product Pickup Order created by the Blood Bank and select " Activate.. ".	☐	☐
4. From the Order Cart, click on the Request Blood Product Pickup and select the  button.	☐	☐
5. Fill-out " Units to be Claimed " and " Availability Confirmed by (Blood Bank) " section.	☐	☐
6. Click  button.	☐	☐
 The status will change from " Available for Activation " to " Completed Activation " if consumed, then it will generate an order for Request Blood Product Pick with " Active " Status.	☐	☐
CARRYING OUT BLOOD TRANSFUSION		
ACTIVATION OF BLOOD TRANSFUSION	D	ND
1. Select Patient from the list.	☐	☐
2. Click the  tab.	☐	☐
3. Right click on the Transfuse Order with "Available for Activation" status	☐	☐
4. Select " Activate "	☐	☐
5. Double check on the details from the Transfuse Order and select " Submit Order(s) for... " button.	☐	☐
6. Input user's password from the Reauthenticate window.	☐	☐
7. Click  button.	☐	☐
 A new Transfuse Order will be generated in the Orders Tab with an Active Order status.	☐	☐
DOCUMENTATION OF BLOOD TRANSFUSION	D	ND
1. Right click on the Activated Transfuse Order and select " Attach Document ".	☐	☐
2. Type and search for " Blood and Blood Transfusion Record ", " BT Record ", or " BBTR " on the search field.	☐	☐
3. Click  button.	☐	☐
4. Fill-in the required information in the Verification Process .	☐	☐
5. Select the tick box 	☐	☐

6. Select  button.	☐	☐
7. To document the Pre Transfusion, right click on the Activated Transfuse Order, select "View" > "Document" then click the hyperlink .  The same attached BBTR document will be launched	☐	☐
8. Fill-in the required information in the Pre Transfusion Process.	☐	☐
9. Select  button.	☐	☐
10. To document the Intra Transfusion, right click on the Activated Transfuse Order, select "View" > "Document" then click the hyperlink .  The same attached BBTR document will be launched.	☐	☐
11. Fill-in the required information in the Intra Transfusion Process	☐	☐
12. Select  button.  Repeat steps 12 to 14 , if applicable, to document the Intra Transfusion Vital Signs (After 15mins, 30mins, 1hr and 2hrs)	☐	☐
13. To document the Post Transfusion, right click on the Activated Transfuse Order, select "View" > "Document" then click the hyperlink.  The same attached BBTR document will be launched.	☐	☐
14. Fill-in the required information in the Post Transfusion Process.  Fill-in Blood Transfusion Reaction if needed.	☐	☐
15. Untick the "Incomplete" tick box.	☐	☐
16. Select  button.	☐	☐
17. Click  button.  The Transfuse Order status will automatically change to "Completed" once the BBTR document is saved as Complete.  <i>*Vital Signs will automatically reflect in the Flowsheet>Blood Transfusion Vital Signs</i>  <i>**Intake and Output shall still be documented manually in the Flowsheet</i>	☐	☐
Blood Product Return (if with Blood Transfusion Reaction)	D	ND
1. Click  in the: a. Main toolbar, or in the b. Patient Header beside the patient's name.  As a system safety feature, Allergy/Intolerances Summary View may appear. To keep this from happening, the Physician must complete reviewing the Allergies. Otherwise, click Close to exit the window.	☐	☐

2. In the Requested By window, select  radio button.	☐	☐
3. Click  button.	☐	☐
4. Type and select Blood Product Return .	☐	☐
5. Click  button.	☐	☐
4. In the Transfusion Indication, click the  icon.	☐	☐
5. Select " None Found " and click  button.	☐	☐
6. Click the " Submit Order(s) for.. "	☐	☐
7. Input user's password from the Reauthenticate window.	☐	☐
8. Click  button.	☐	☐
MEDICATION ADMINISTRATION <i>Please refer to SLMC-Policy and Procedure</i> <i>"Medication Administration". Medication Management 1-16-4, 08152024</i> <i>"Review of Medication Order". Medication Management 1-12-6, 07032024</i> <i>"Adverse Drug Reaction Prevention and Management". Medication Management 1-17-3, 09162024</i>		
ADDING VISIT LIST COLUMN	D	ND
 1. On the Patient List tab, click  icon from the chart-tab toolbar.	☐	☐
2. Select " New Med Order " and " Msg for Nsg " from the Available Columns .	☐	☐
3. On the Displayed Column, select " New Med Order " or " Msg for Nsg " and click  button as necessary.	☐	☐
4. Click  button.	☐	☐
 New Med Order Column -  will appear once the medication order is already verified. Msg for Nsg Column -  will appear once the medication is ready for issuance.	☐	☐
ACKNOWLEDGEMENT ON NURSING MESSAGE	D	ND
1. Click the  icon on the Msg for Nsg Column.	☐	☐
2. Click the message on the Orders with Unacknowledged Nursing Message window.	☐	☐
3. Check on the Remarks provided and click  .	☐	☐
4. Click  button.	☐	☐
 the  icon will be removed.	☐	☐

KNOWLEDGE-BASED MEDICATION ADMINISTRATION

Knowledge-Based Medication Administration uses patient and medication barcodes to validate medication administration information for a patient at the point of care

The general workflow when administering medications using KBMA are as follows:

- I. Scan the patient's barcode.
- II. Scan the medication barcode.
- III. Review the scanned medication versus the medication order.
- IV. Administer the medication and complete the documentation.

Please refer to SLMC-Policy and Procedure

"Patient Medical Record Documentation". Clinical Records Management 1-13-7, 08152024

"Medication Administration". Medication Management 1-16-4, 08152024

"Review of Medication Order". Medication Management 1-12-6, 07032024

ACCESSING KBMA	D	ND
1. Select the Patient from the list.	☐	☐
 2. Click the Worklist Manager from the Main Toolbar.	☐	☐
3. Click  icon.	☐	☐
4. In the " Scanning for Patient: " window, click on the field box and scan the patient's barcode located on the ID band.	☐	☐
5. Press Enter	☐	☐
6. Click on the field box on Scan Drug and scan the medication barcode located on the medication label sticker.  Multi-tab Dose: If the medication's stock dose is less than the prescribed dose, KBMA will require you to scan the medication's barcode multiple times.	☐	☐
7. Press Enter.	☐	☐
8. Fill out all necessary fields in the Medication Administration Form window.  8.1. For High alert medications (HAM), a Witnessed/Co-Signature is required to validate.  8.2. If the medication's stock dose is less than the prescribed dose, KBMA will require you to input the actual quantity that you will administer to the patient.	☐	☐
8.1.a. Click  icon.	☐	☐
8.1.b. In the Cosign window, input the username and password of the co-signer.  The co-signer will input all the details needed.	☐	☐
8.1.c. Click  button.	☐	☐

8.2.a. Double click on the Alerts/Warnings .	☐	☐
8.2.b. Input remarks on Additional Comments field.	☐	☐
8.2.c. Click  button.	☐	☐
9. Click  button.	☐	☐
10. Click the “ Scan Complete ” button.	☐	☐
11. Click the “ Mark all as Done ” button.	☐	☐
RESCHEDULING A MEDICATION TASK (WORKLIST MANAGER)	D	ND
1. In the Worklist Manager, right click on the time cell of the medication that needs to be adjusted and click the Reschedule option to reveal additional options: a. This Instance - Reschedule a selected task only b. All Instances - Reschedule all tasks (current and/or future)	☐	☐
2. On the Tasks: Reschedule window, fill-out Moved Scheduled Tasks hours and/or minutes as necessary	☐	☐
3. Provide Reason from the dropdown list.	☐	☐
4. Click  button	☐	☐
ORDER MESSAGE MANAGER Utilized to coordinate with pharmacy dispensing regarding medication refill and pharmacy stock replacement. • For Replacement - wastage • Refill - IVF to follow • Send Next Dose - IV Drips to follow (e.g. 2nd cycle of KCL drip) • Contaminated Dose - Broken/tampered medication • PRN/Bulk Refill - PRN/SP additional dose or incomplete batching	D	ND
1. To access Order Message Manager a. On the Orders tab, right click on the medication order, select View then click Order Message Manager or; b. On the Worklist Manager, right click on the medication order and select Order Message Manager .	☐	☐
2. Click  button.	☐	☐
3. On the Message Category dropdown, select the appropriate Category	☐	☐
4. Select the appropriate reason from the Reason dropdown.	☐	☐
5. Fill-out other fields as necessary.	☐	☐
6. Click  button.  It will generate an Active message status from the Order Message List.	☐	☐
7. Click  button.	☐	☐

SUSPEND MEDICATION		D	ND
- Nurse will suspend medication during: -Pre-Operative (once patient is on NPO) -Discharge -Out on Pass - CP will suspend medication during: -after administering first dose of unapproved antimicrobial order (AMS)			
1. On the Orders tab, right click on the medication, select Suspend then click Suspend Order...		☐	☐
2. Click on the Reason dropdown and select the appropriate reason for suspension.		☐	☐
3. Click  button.   icon will appear in the Medication Order.		☐	☐
UNSUSPEND MEDICATION		D	ND
- Nurse will unsuspend medication during: -Post Operative -Out on Pass			
1. On the Orders tab, right click on the medication, select Unsuspend then click Unsuspend Order...		☐	☐
2. Click on the Reason dropdown and select the appropriate reason to unsuspend.		☐	☐
3. Click  button.   icon will be removed in the Medication Order.		☐	☐
PATIENT FLOW			
LOGGING IN & LAUNCHING PATIENT FLOW		D	ND
1. Open a browser then go to https://portal.stlukes.com.ph/		☐	☐
2. Enter User name and Password.		☐	☐
3. Click the  button.		☐	☐
4. Click on  "Patient Flow - TEST" (<i>This is "Patient Flow - PROD" in production</i>).		☐	☐
5. Enter User name and Password.		☐	☐
6. Click the  button.		☐	☐
REQUESTING ON PATIENT FLOW		D	ND
1. Click on the  button..		☐	☐
2. Click the  to select the Request Type.		☐	☐
3. Click the  button		☐	☐
4. Select the Location on the "To" Section		☐	☐

5. Select the needed request/s from the list.	☐	☐
6. Provide added instruction/s from the "Notes" section (if necessary).	☐	☐
7. Provide contact from the "Phone" section (if necessary).	☐	☐
8. Click  button.	☐	☐
DISCHARGE PROCESS <i>Please refer to SLMC-Policy and Procedure "Patient Medical Record Documentation". Clinical Records Management 1-13-7, 08152024 "Transfer/Discharge of Patients from the Intensive Care Cluster Units", Patient Care and Safety 1-22-4, 07172023 "Patient's Discharge Process", Patient Care and Safety 1-79-4, 01152025</i>		
VIEWING OF ORDER/S	D	ND
1. Select Patient from the list.	☐	☐
2. Click the  tab.	☐	☐
3. Apply the desired filter in the Options Panel to search for the "Discharge Patient" order.	☐	☐
VIEWING DISCHARGE RECONCILIATION	D	ND
1. Click  from the Main Toolbar.	☐	☐
GET MEDICATION LIST	D	ND
Used to get a list of medications from the Discharge Reconciliation created by MDs.		
1. On the Medication Instruction section, click on the  radio button.	☐	☐
2. On the Home Medications Summary List window, fill-out all necessary details.	☐	☐
3. Click  button.	☐	☐
COPY/FORWARD	D	ND
Used to copy and paste all instructions created by MDs.		
1. On the Instructions section, click  icon.	☐	☐
2. Click the Document to pull up the instructions created by the MDs.	☐	☐
3. Tick the box to pull up section fields.	☐	☐
4. Click  button.	☐	☐
 Will automatically fill-up Sections.	☐	☐
5. Fill-up Acknowledgement section as necessary.	☐	☐
6. Click  button.	☐	☐

VIEWING REQUIRED DOCUMENTS FOR DISCHARGE	D	ND
Documents necessary for patient discharge may pull information from other documents in the patient's chart: a. CF4 requires: i. Problem Manager ii. Physician Discharge Summary, Inpatient b. CF3 requires: i. Problem Manager ii. Delivery Record iii. Physician Discharge Summary, Inpatient c. Discharge Instructions, Inpatient		
1. Click the Documents tab in the Chart Tab	☐	☐
2. Apply the desired filter in the Options Panel to search for the required documents.	☐	☐
3. Check the status of the documents (<i>Incomplete, In Progress, & Complete</i>)	☐	☐
PRINTING OF NECESSARY DISCHARGE PAPERS	D	ND
I. CF4 Printing		
1. Select the correct Patient from the Patient List tab.	☐	☐
2. Click on the  Patient Info tab. From the Data Entry Section, click on the Significant Event.	☐	☐
3. From the Type dropdown, select Print CF4.	☐	☐
4. From the Event dropdown, select Print CF4.	☐	☐
5. Click  button.	☐	☐
6. Click  button.	☐	☐
II. CF3 Printing		
1. Select the correct Patient from the Patient List tab.	☐	☐
2. On your Main Toolbar, select Print Reports .	☐	☐
3. Under Report Category: Administrative. Select CF3 Report. Click Preview. 	☐	☐
III. DOCUMENT		
1. Click the Documents tab in the Chart Tab	☐	☐
2. Apply the desired filter in the Options Panel to search for the document to be printed	☐	☐
3. Select the document to be printed, then access Print Reports	☐	☐
4. Search for Document as the Report Category	☐	☐
5. Click "Clinical Document/Structure Notes Entry", then click Preview.	☐	☐
IV. PRESCRIPTION		
 1. Click the Print Reports icon on the main toolbar.	☐	☐

2. Click the dropdown on the Report Category .	☐	☐
3. Select Ambulatory Apps .	☐	☐
4. Select the Medication Prescription .	☐	☐
5. Click  button.	☐	☐
6. Input Prescriber Name in the text box.	☐	☐
7. Click  button.	☐	☐
8. Click the  icon to print prescription.	☐	☐
ORDERING THE NEW TURN-IN REQUEST ORDER SET	D	ND
1. Click  from the Main Toolbar.	☐	☐
2. Select  radio active button from Requested By window then click  button.	☐	☐
3. Type and Select  from the list and click  button.	☐	☐
4. Fill up all necessary fields and click  button.	☐	☐
5. Review the order and click  button.	☐	☐
6. Input password and click  button.	☐	☐
REPRINTING PHARMACY TURN-IN SLIP	D	ND
1. Double click the Turn-In Request Order from the Orders Tab and Copy the Order ID	☐	☐
2. Open  from the Main Toolbar.	☐	☐
3. Select Orders from the report Category dropdown.	☐	☐
4. Select Turn In Request Reprint.	☐	☐
5. Click  button.	☐	☐
6. Paste Order ID on the textbox and click  button.	☐	☐
LOGGING IN TO SLB	D	ND
1. Open a browser then go to http://10.10.60.95:8081/login	☐	☐
2. Enter User name and Password .	☐	☐
3. Click the LOGIN button.	☐	☐
VIEWING AND/OR RESOLVING PENDING AND INVALID TRANSACTIONS		

1. Select Nursing (<i>General//Special</i>) Unit Landing Page	☐	☐
2. Enter the patient's PIN	☐	☐
3. In the Action column, select Pending Transactions in the drop down menu	☐	☐
4. Identify which department is responsible for resolving the Pending/Invalid Transaction (<i>Pharmacy Dispensing, Pathology, Nursing Unit, IT, etc.</i>)	☐	☐
CHECKING PROFESSIONAL FEES	D	ND
1. In the Nursing Unit landing Page, search for the patient's PIN	☐	☐
2. In the Action column, select PF Encoding in the drop down menu	☐	☐
TAGGING PATIENT FOR BILLING DISCHARGE IN SLB Tagging the patient For Billing Discharge in SLB	D	ND
1. In the Nursing Unit landing Page, search for the patient's PIN	☐	☐
2. In the Action column, select For Billing Discharge in the drop down menu <i>Note: Will only appear when the patient's account has NO Pending Transactions and a CORE Discharge Order has been made by the attending service</i>	☐	☐
ENTER READY FOR BILLING IN OCIS The Ready for Billing order in OCIS stops further orders from being entered in the patient's chart.	D	ND
1. Click  from the Patient Banner.	☐	☐
2. Tick the "Me" option under the " Requested by " section and click the  button.	☐	☐
3. Search " Ready for Billing " using the Order Entry Worksheet.	☐	☐
4. Select the " Ready for Billing " result and click the  button.	☐	☐
5. Ensure that items 1 to 7 on the Ready for Billing order form is accomplished and tick the "YES" or "NA" option for each number, whichever is applicable.	☐	☐
6. Click the  button on the Ready for Billing order form.	☐	☐
7. Click the " Submit Order(s) " button on the Order Entry Worksheet.	☐	☐
8. Input your password and click the  button to authenticate the order	☐	☐
GATE PASS PRINTING	D	ND
1. Select Patient to be discharged from the list	☐	☐
2. Click Registration found at the Menu Bar	☐	☐
3. Select Visit Maintenance 	☐	☐
4. Click Discharge Visit...	☐	☐
5. A Visit Discharge window will appear. Input all required/necessary details	☐	☐

6. Click  and system will <u>automatically</u> generate the Gate Pass.	☐	☐
BUSINESS CONTINUITY PLAN - READ ONLY ENVIRONMENT		
ROE Laptop Location: G West (Ground Floor) Emergency Room (First Floor) 2 Main A (Second Floor) 3 Main A (Third Floor) 5 Main A (Fifth Floor) 6 Main A (Sixth Floor) 2 Annex (Annex Building) Pharmacy Dispensing (Pivot Building) Please refer to SLMC-Policy and Procedure "Business Continuity Management". Leadership 1-119-1, 07042022.		
ACCESSING READ ONLY ENVIRONMENT	D	ND
1. Open a browser then go to <u>slmcqcprodbcs4/bcs/login</u>	☐	☐
2. Enter User name and Password as set by the IT Department	☐	☐
3. Click the  button.	☐	☐
 Business Continuity Solution window will appear.		
REGISTRATION OF UNIT IN THE FILTER		
1. Click on  button.	☐	☐
2. Search for the unit from the Search Unit text box.	☐	☐
3. Tick on the  beside the unit name.	☐	☐
4. Click on the Unit Name text box and enter the desired name. (e.g. 1 Annex)	☐	☐
5. Click  button.	☐	☐
VIEWING AND PRINTING OF PATIENT'S CHART	D	ND
1. Select patient from the Patient List tab.	☐	☐
2. Click on the corresponding tab to print (e.g. Orders tab)	☐	☐
3. Click  to print.	☐	☐
VIEWING AND PRINTING OF PATIENT'S eMAR	D	ND
1. Select patient from the Patient List tab.	☐	☐
2. Click  on the patient header.	☐	☐
 Medication List window will appear.		
3. Click the  icon to print.	☐	☐
